

Pre-Conference Tours - **Limited seating!**
Compost Facility Tours

Join us for a 3-site facility tour

Sacramento Kings Stadium/Golden 1 Center

Learn how Sacramento Kings leadership and staff work together with Recology on a sustainability vision that focuses on handling all waste, recycling, and composting services for Golden 1 Center and Downtown Commons (DOCO). In the pursuit of zero waste at the stadium, the Kings, awarded Environmental Innovator of the Year by Green Sports Alliance and Sustainable Business of the Year for Energy Conservation by BEREC, has sustainability at the forefront. Attendees will see how Recology enhances the Kings composting program at Golden 1 Center and strengthens the arena's efficiency for recycling and waste management services.

Northern Recycling Composting Facility at the Yolo County Central Landfill

The Yolo County Central Landfill (YCCL) and Northern Recycling LLC work as a team to expand their operations. Attendees will see covered aerated static pile and aeration systems, working pads and equipment for screening and sorting food and green material.

Western Placer Waste Management Authority (WPWMA)

A behind-the-scenes view of WPWMA's efforts to create a local circular economy. See how they uniquely handle waste in Placer County and learn about their innovative practices to recycle and reuse through community engagement, public-private partnerships, and establishing well-planned facility infrastructure.
